RE: Online survey invite coming soon. Chance to win £150.

Dear Parent/Carer,

This is a heads-up to say we'll be sending out an invitation to all parents/carers on Wednesday asking you to complete a 5 minute survey about the impact of our efforts to become a greener, more environmentally sustainable school on you and your household.

The survey is a key element of the national Green Schools – Green Homes research project from King's College London. This is a study of how schools like ours are helping local communities become more environmentally friendly and lower their carbon emissions.

YOUR VOICE MATTERS. We do hope you'll take the time to complete the survey, as what you have to say really matters to us, and will make a huge difference to the overall quality and relevance of this significant study.

£150 PRIZE DRAW: Complete the survey for a chance to win £150! So look out for the invite coming to you this Wednesday.

FURTHER INFORMATION: If you have any questions please contact David Libbert who is running the research project at david.libbert@kcl.ac.uk.

Kind regards

Mr S Bell
Assistant Headteacher
